llinkedin.com/in/edgardorl

I've been working with several technologies through my 7+ years of experience and continue learning the newest ones in order to offer the best solution for the ideas of the people. That's one of the things that I really enjoy... to transform those ideas into a real sensation through the web and mobile development.

WORK EXPERIENCE

- 2012 - Present**
 - FULL-STACK WEB AND MOBILE DEVELOPER**
at Home - Morelos, Mexico
Working for clients/companies from home.
 - Markup (HTML, Jade/Pug, CSS, Stylus, Sass, Webpack)
 - Animations (GSAP, Scrollmagic, Keyframes)
 - Front end (ReactJS + Redux, VueJS)
 - Back end (Laravel, Go, NodeJS, ExpressJS)
 - DB (MongoDB, MySQL)
 - Mobile (React Native + Redux)
 - Cloud (Firebase, AWS)
 - Wikipedia
 - BenQ
 - Lufthansa
 - Buen Fin
- 2018 - Present**
 - CTO**
at Alianzas y Negocios (Mexican company) - alianzasynegocios.mx - Morelos, Mexico
 - Managing a microservices architecture with Go and a mobile app with React Native
- 2017 - 2018**
 - LEAD FULL-STACK WEB AND MOBILE DEVELOPER**
at Laudrive (Mexican company) - laudrive.com - Morelos, Mexico
 - Worked on some modules of a mobile application that offers a private car service only for woman also I built dashboards for internal operations.
- 2016 - 2017**
 - FRONT-END AND MAIN MOBILE DEVELOPER**
at PaloIT (French company) - palo-it.com - Mexico city
 - Mobile application that controls your fleet's fuel consumption.
 - I worked with Ionic 2 / Angular 2 for Android and iOS platforms.
 - Using the following Google APIs of Maps: Directions, Geocoding, Distance Matrix, Geolocation and Static Maps also cordova plugins.
 - And I built all the functionality and the markup of the mobile app like the driver management, searching of places and directions with details, planing routes using multiples stops and a tiny GPS navigator.
- 2016**
 - FRONT-END DEVELOPER**
at Trato (Mexican company) - trato.io - Mexico city
 - Web app to manage contracts in the cloud.
 - I worked with Angular 1 / Angular 2.
 - I built the first version of this app which included the way to create contracts with dynamic sections and the process between the sender and the receiver.
 - I also use Go/BeeGo to create some services for the backend.
- 2014 - 2015**
 - FULL-STACK WEB DEVELOPER**
at Apps-O-Rama (Ukrainian company) - appsorama.com - Mexico city
 - I built/upgrade several websites using only HTML5/CSS3 and jQuery to perform the animations and one API using Laravel 5 for an iOS application.
 - Two websites for two mobile games.
 - The API was built for the UbiQ iOS application using some Amazon services for the backend like S3 and EC2 instances.
- 2013**
 - WEB AND MOBILE DEVELOPER**
at Softtek (Mexican company) - softtek.com - Aguascalientes, Mexico
 - I mostly worked using Phonegap for iOS and Android.
- 2013**
 - PHP DEVELOPER**
at CodeJobs (Mexican company) - codejobs.com - Morelos, Mexico
 - I used the PHP framework built by the CEO of this company to work on the main platform.

MOST PROUD OF

- Pixel perfect**
I use this practice everytime I create a markup from a design.
- Sharing knowledge**
As mentor to people over Internet or in person.
- Care of the Quality of Code**
To always deliver a readable and scalable product.

SKILLS

Front-end

Back-end

Mobile

Software

LANGUAGES

EDUCATION

- **COMPUTER SYSTEMS ENGINEERING**
at Cuautla Institute of Technology (2009 - 2013)

DEVELOPED PROJECTS

- **BOTTLE – EASY MOBILE ORDERING**
Messenger interface, UI Kit and a dashboard for Bottle.
- **CURIDENTAL** website
Website(with some animations) and a blog for a Dentist.
- **SILICON VALLEY INNOVATION LAB** website
Website(with some animations) to manage the innovation network.
